Re: KARN(AM), Little Rock, arkansas
Facility Identification Number: 60703
Radio License Holding CBC, LLC
Special Temporary Authorization

Dear Counsel:

This is in reference to the request filed December 28, 2010, on behalf of Radio License Holding CBC, LLC ("RLH"). RLH requests special temporary authority ("STA") to operate Station KARN with emergency antenna facilities pursuant to Section 73.1680.¹ In support of the request, RLH states that the station's nighttime directional antenna system was damaged by vandals and is inoperative. RLH requests STA for operation during nighttime hours with an emergency nondirectional antenna and reduced power.

Section 73.1680 of the Commission's rules provides for operation with emergency antenna facilities following damage to authorized antenna systems, provided that an informal request for continued use of an emergency antenna is filed with the Commission within 24 hours. In particular, Section 73.1680(b)(1) provides that AM stations using an emergency nondirectional antenna in lieu of authorized directional facilities shall operate with power reduced to 25 percent or less of the nominal licensed power, or a higher power, not exceeding licensed power, while insuring that the radiated field strength does not exceed that authorized in any given azimuth.

Accordingly, the request for STA IS HEREBY GRANTED. Station KARN may operate during nighttime hours with an emergency nondirectional antenna and reduced nominal power not to exceed 1.25 kilowatts, only as necessary pending restoration of directional operation. Authority also is granted for operation during nighttime hours with parameters at variance and/or reduced power while maintaining monitor points within licensed limits, pending the filing and processing of an application for direct measurement of operating power. It will be necessary to further reduce power or cease operation if complaints of interference are received. RLH must notify the Commission when licensed operation is restored.² RLH must use whatever means are necessary

¹ KARN is licensed for operation on 920 kHz with 5 kilowatts, unlimited hours, employing a directional antenna during nighttime hours only. (DA-N-U).

² See 47 CFR §§ 73.45(c), 73.51, 73.54, 73.61(b)

to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR § 1.1310.

This authority expires on **July 3, 2011**.

STA Advisory: Section 309(f) of the Communications Act of 1934, as amended, authorizes the Commission to grant STA in cases of "extraordinary circumstances requiring temporary authorizations in the public interest and when delay in the institution of the temporary operations would seriously prejudice the public interest." However, Section 309(f) is not a means by which a licensee/permittee may circumvent established processing procedures which require the filing of an application, nor is it a means by which a broadcaster may enhance his facility or make operation more convenient for the broadcaster. Stations operating with less than licensed facilities under temporary authorities can be viewed as receiving the benefit of a larger protection area than that in which they are currently providing service.

Accordingly, Special Temporary Authorities by nature are to be temporary and are not intended for extended use. Licensees of stations operating under temporary authorities are reminded that timely restoration of permanent facilities is the responsibility of the licensee and should be undertaken expeditiously. Any request for extension of special temporary authorities carries an increased burden with each subsequent request.

Therefore, requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Sincerely,

A handwritten signature in blue ink, appearing to read "Charles N. Miller", with a stylized flourish at the end.
